PROFESSIONAL SUMMARY

Motivated Computer Science and Engineering student seeking opportunities to apply skills in software development, artificial intelligence, and full-stack development. Passionate about building real-world projects, exploring emerging technologies, and continuously improving through hands-on learning and problem-solving.

INTERNSHIPS

AI & Software Development Intern, Self / Independent Projects

- Developed AI-based and automation projects integrating Python and APIs.
- Built and tested intelligent systems like voice assistants and web applications.
- Applied problem-solving skills to debug, optimize, and improve project performance.

Web Development Intern, Personal Projects

- Designed and developed responsive web applications using React and modern UI practices.
- Implemented routing, component structuring, and frontend logic for scalable apps.
- Integrated GitHub and external links for portfolio-ready deployment.

Machine Learning Trainee, Online Bootcamps

- Learned and applied ML concepts including supervised learning and model evaluation.
- Worked on datasets to perform preprocessing, analysis, and predictions.
- Explored NLP basics and AI model improvement techniques.

Python Full Stack Intern — EduSkills Academy

- Completed an 8-week internship focused on Python Full Stack Development.
- Worked with Python, Django, HTML, CSS, Bootstrap, JavaScript, jQuery, SQL, and Git.

EDUCATION

Bachelor of Technology - Computer Science & Engineering,

Maharaj Vijayaram Gajapathi Raj College of Engineering, Vizianagaram

- 7.15 (CGPA) upto VI semester

2023 – Present

Vizianagaram, India

Intermediate (12th Grade) - MPC, Narayana Jr. College

- 89.6%

Dilsukhnagar, India

Secondary School (10th Grade), Smt. Godavaridevi Saraf High School

- 88%

Vizianagaram, India

TECHNICAL SKILLS

Programming Languages

Python, C++, JavaScript, HTML, CSS

Frameworks & Tools

React, Git/GitHub, VS Code

Software Development

Automation, API Integration, Web Development,
Full-stack Development

Operating Systems

Linux (Ubuntu basics), Windows

Artificial Intelligence / ML

Machine Learning Basics, NLP Fundamentals,
Model training and testing

INTERESTS

- Artificial Intelligence
- Machine Learning
- Full-Stack Web Development
- Open Source Software

PROJECTS

- **TutorCall**
A web-based platform connecting students with tutors through a clean UI and routing system. Focused on frontend design using React and integration of external links.
GitHub Link: <https://github.com/Karthikeya-Kinthada-25/tutorcall-ai>
- **JARVIS Voice Assistant**
An AI-based assistant capable of executing commands, responding to voice inputs, and automating tasks.
Built using Python with speech recognition and automation features.
GitHub Link: <https://github.com/Karthikeya-Kinthada-25/jarvis-ai-assistant>
- **Resume Analyzer**
A minimal, AI-style resume analyzer website that scores resume, extracts skills, compares them with job descriptions, checks ATS readiness, and generates stronger resume bullet suggestions.
GitHub Link: <https://github.com/Karthikeya-Kinthada-25/resume-analyzer>
Website link: <https://resume-analyzer-k.vercel.app/>
- **Portfolio Website**
A personal portfolio showcasing projects, skills, and contact information.
Designed with modern UI/UX principles and deployed for professional use.
GitHub Link: <https://github.com/Karthikeya-Kinthada-25/portfolio>
Website link: <https://karthikeya-k-portfolio.vercel.app/>

SOFT SKILLS

Interpersonal & Professional

- Time management
- Problem-solving
- Multitasking
- Adaptable
- Team player
- Communication

ADDITIONAL INFORMATION

Additional Details

- Strong interest in AI, trading, and building online businesses.
- Actively learning new technologies and improving development skills.
- Passionate about self-growth, discipline, and long-term success.
- Comfortable working independently and in team environments.
